

FLEX SORTER
Multi Segment
Pack Rejection System

Multi-Segment Rejection System - FLEX SORTER

An advanced and efficient solution for removing or distributing packs in various industries.

It features cutting-edge pneumatic-driven segments that provide high-performance and easy integration with existing production lines.

Features

- Reliable pneumatic driven rejection
- High accuracy and guiding until final position
- Handles various sizes of packages, crates and boxes
- Easy integration with existing production lines
- Optimized air consumption
- Low-wear and easy-to-clean design
- Safe rejection, even with small package spacing
- Rejection of packages with different dimensions
- Large-scale contact to the package. Thus suitable especially for unstable packages
- Distribution segments can be designed according to project requirements, without modification of the basic module

Benefits

Increased Production Efficiency

Improve production efficiency by precisely removing faulty packs, removing the need for manual removal of the packs.

Cost Savings

Reduce operating costs with an automated rejection solution that eliminates the need for manual labour, saving resources and expenses. Our system is low-maintenance, easy to clean, and reduces overall operating costs.

Stable Rejection

Guiding packs until their final position guarantees high stability even for packs that fall over easily .

Easy Integration

Integrate the FLEX SORTER system seamlessly with existing production lines and bottling equipment for easy installation and operation.

Application

- Wide range of packs
- Also for differing package dimensions

Process

1. Flagged crates pass through the trigger at the rejection point.
2. The BBULL FLEX SORTER detects the size of the pack and lowers its' segments accordingly.
3. Addition Segments are lowered to guide the pack to its' final position.

Specifications

FLEX SORTER

- Up to **4,000 – 8,000** packs per hour
- Low-wear design
- Air consumption between 4 and 18,1 litre per rejection
- Easy cleaning
- Safe rejection, even with small container spacing

Warranty & Support

Our systems come with a comprehensive warranty and dedicated after-sales support services to ensure customer satisfaction and peace of mind.
